Hello!

I'm an **engineering manager** with almost a decade of experience in building enterprise software.

My experience ranges from **building** applications from the ground up to **managing** teams and **scaling** applications that serve over 25 million people.

EXPERIENCE

Glassbreakers

Engineering Manager

San Francisco, CA | 2015 - 2018

As a lead engineer for almost 3 years, I was the primary developer and owner of the vast majority of app features.

I **managed an engineering team** across the United States  and Nigeria  and also played a large role in serving as both **Product Manager** and contributing **designer**.

Opower

Implementation Engineer

San Francisco, CA | 2012 - 2015

Responsible for launching, configuring, deploying, and maintaining Opower products across 100+ clients

Capgemini

Business Analyst

Atlanta, GA | 2010 - 2012

Conducted maintenance, testing, and development of enterprise systems for Telecom partners

EDUCATION

Georgia Tech

Bachelor Science  
Electrical Engineering

Master of Science  
Industrial Engineering
